

CORONAVIRUS

The WHO advise that standard precautions for all patients are applied in the areas of waste management & environmental cleaning.

The AzoWipe™ range:

- 70% Isopropanol alcohol wipes and sprays for convenient, effective and rapid disinfection of hard surfaces and equipment.
- Tested to EN standards and approved under the Biocidal Products Regulation (BPR).
- Quick drying no residue formulation helps reduce the risk of cross-infection within busy healthcare environments.

The
AzoWipe™ Range
is proven to be
effective against
Coronavirus in
15 seconds.*

* Tested to EN 14476
Feline Coronavirus
